

# Hyundai SE2200LM

## High Speed CNC Lathe

Hyundai WIA's new CNC SE2200 range has been specifically developed to provide high end performance at an affordable cost and with a compact footprint. This is achieved by the 30 degree high rigidity one piece bed and compact internal motor configuration.

Special AMW price and  
immediate installation  
available!

### Key Features

- High Quality with latest Fanuc Smart Plus Controller
- 30° Slant bed for greater rigidity & precision
- Compact design
- Auto grease supply as standard increasing the life of your coolant.
- Machine guidance & energy software as standard

### Technical Specifications

Item	Specification
Max Turning Diameter	300mm
Max Turning Length	560mm
Chuck Size	8"
Spindle RPM	4,500
Spindle Power	15/11 kw (max/cont)
Spindle Torque	167/92 Nm (max/cont)
Machine Footprint	4.0m x 1.6m
Milling Tool Speed	6,000 RPM
